

MAGNETOM Espree: Not Your Average Open MRI

- The extra-large Open Bore accommodates patients of all sizes and is perfect for those who get anxious during an MRI.
- ONE FOOT of spacious headroom: you'll no longer feel like you're nose-to-nose with the top of the magnet.
- Due to its short design, most exams can be done with your head outside of the system. No other MRI can offer that.
- 1.5 Tesla: the Espree's high power delivers the best images for the best care. So you can rest easy inside and also rest easy with a confident doctor's diagnosis.

The Radiology Group Imaging Center
accepts most insurance plans, including
John Deere Premier.
